

JANKALYAN BLOOD BANK MANNUAL

1) User Interface -

- On opening the app, user will be first greeted by showing the name of the organisation.
 - Then one sign in page will be displayed to the user.
 - If the user is already registered, he/she has to provide the required details and proceed by clicking the login button.
-
- If the user is not an existing user, then he/she has to swipe left in order to see the register page that will look like follows
 - Then user has to provide some details.
 - Then user can provide the profile photo by clicking the doodle of man on screen.
 - User will be asked to choose photo from camera or gallery.
 - Once the photo is selected, user may proceed by clicking register button

- Once the user has logged in / registered, he/she will be redirected to home page of the app which is the feed view screen.
- On this screen, user can see the different posts from groups, form posts and posts of his friends.
- On clicking any post, the image will be enlarged. User can also give likes to the images.

- On the bottom of the screen, one navigation bar is present. Clicking the correct icon will navigate user to respective screen.
- For example, if user clicks second icon on the bottom navigation bar, then he/she will be redirected to group's page.
- The groups are separated in two sections viz.
 - i. Your Groups
 - ii. Other groups
- If user clicks one of Your Groups then one screen having latest posts in that group will be shown.
- If user clicks one of Other Groups then request to join that group will be sent to admin.

- Now again, if the user clicks third ('+') button on the navigation bar, then he/she will be redirected to new post screen.
- Then there he will be asked to select an image to post either from gallery or from camera, else user can skip the image and post only text data.
- After clicking post button, the corresponding post will be added to his/her profile and will be visible to his/her friends.
- The last icon on the toolbar is the profile icon; user can navigate to his/her profile by using this icon.
- In the profile view, the user will be given an overview of his/her profile.
- User can also scroll down to see the posts he/she has submitted till date.
- There are two tabs provided in the profile view, which are
 1. Friends
 2. Update
- In the friends tab, user can see the friend suggestions and the list of people that are friends with the user.
- If you click any friend suggestion then the friend request will be sent to the corresponding user. And if you click already existing friend then his/her profile will be displayed.
- On the other hand the update tab will have the functionality to update the profile information that was previously been submitted. The update information excludes mobile number.
-
